Istruzioni/Instructions

PANERAI

**(A) LEVER (B) WINDING CROWN (C) HOURS
(D) MINUTES (E) SMALL SECONDS (F) DATE**

PICTURES SHOWN ARE FOR ILLUSTRATION PURPOSE ONLY. ACTUAL PRODUCT MAY VARY.

INSTRUCTIONS FOR USE

WINDING THE WATCH

1. Raise the lever **(A)** of the crown cap to release the winding crown **(B)**.
2. Without pulling it out **(position 0)**, wind it clockwise **(a)** about ten times for partial winding.
3. Lock the winding crown by closing the lever **(A)** to ensure waterproofness.

Note: The watch has an automatic mechanical movement with a 3-day power reserve. If the watch has stopped running, it is recommended to partially wind it manually before wearing and using it again. When the watch is fully wound, winding the crown has no effect on the mechanism. Turning the crown **(B)** counterclockwise **(b)** has no effect.

SETTING THE TIME

1. Raise the lever **(A)** of the crown cap to release the winding crown **(B)**.
2. Pull it out to the second click **(position 2)** and set the time.
3. Return the winding crown **(B)** to the initial position **(position 0)** and lock the lever **(A)**.

THE STOP SECONDS FUNCTION

The small seconds **(E)** are at 9 o'clock. When the winding crown **(B)** is pulled out to the second click **(position 2)**, the balance wheel and seconds hand **(E)** immediately stop. The stop seconds system mechanism is an accurate way for precise time setting.

SETTING THE DATE

1. Raise the lever **(A)** of the crown cap to release the winding crown **(B)**.
 2. Pull it out to the first click **(position 1)** and set the current date by turning the crown **(B)** clockwise **(a)**.
 3. Return the winding crown **(B)** to the initial position **(position 0)** and lock the lever **(A)**.
